ABSTRACTS

Master's thesis: 71 pages, 5 fig., 6 tabl., 37 sources.

IMPORT SUBSTITUTION, IMPORT, BALANCE, FOREIGN TRADE, COMMODITY STRUCTURE, CUSTOMS TARIFF, IMPORT PROMOTION

The **object of the study** is import substitution policy.

The **subject of the study** is import substitution policy in China and the Republic of Belarus.

The **purpose of the study** is to explore and characterize the structural elements of the import substitution policy in China and foreign countries at the national and supranational levels, and develop directions for its improvement.

Research methods: comparative analysis, grouping method, estimation of specific gravity, graphic.

The results obtained and their novelty: the theoretical foundations of the state policy of import substitution were studied; the experience of implementing the import substitution policy in individual countries was studied; analyzed the implementation of the import substitution policy in China; directions for improving the mechanism of import substitution in the Republic of Belarus have been developed in the context of China's experience.

Area of possible practical application: import substitution policy in the Republic of Belarus and in China.

The author of the work confirms that the calculation and analytical material presented in it correctly and objectively reflects the state of the process under study, and all theoretical, methodological and methodological provisions and concepts borrowed from literary and other sources are accompanied by references to their authors.
